

QUICKIE KIT HEAT PUMP

Everything you need to
plumb a compliant storage
hot water system quickly.

DESCRIPTION

Designed for convenience and efficiency, this Quick Installation Kit is the perfect solution for installing split system heat pumps with ease - complete with insulation to meet state government regulations.

AVG's Heat Pump Quickie Kit simplifies installation and saves time by including all the necessary components for a hassle-free installation. It is compatible with most standard split system heat pumps, making it a versatile and practical choice. The enclosed drawing provides clear guidance on how to use the kit effectively, ensuring a smooth installation process every time.
